

 Compiler Construction Assignment 03 – Rubric

Name: _____

Roll No: _____ Section: _____

Name: _____

Roll No: _____ Section: _____

Criteria	Total Marks	Self Evaluation (Score)
1. CFG Input & Grammar Processing	10	
Correct CFG file reading and format handling	3	
Identification of terminals & non-terminals	2	
Grammar augmentation ($S' \rightarrow S$)	3	
Proper display of grammar	2	
2. FIRST & FOLLOW Sets	5	
Correct FOLLOW set computation	3	
Correct use of $FIRST(\beta a)$ in $LR(1)$	2	
3. LR(0) Items & Canonical Collection	15	
Correct CLOSURE implementation	5	
Correct GOTO implementation	5	
Accurate canonical collection	3	
Proper display of item sets	2	
4. SLR(1) Parsing Table	10	
Correct ACTION table	4	
Correct GOTO table	3	
Proper use of FOLLOW sets	2	
Conflict detection	1	

5. LR(1) Items & Canonical Collection	15	
Correct LR(1) item structure	5	
Correct CLOSURE with lookahead	5	
Accurate LR(1) collection	3	
Proper display of lookaheads	2	
6. LR(1) Parsing Table	5	
Correct ACTION & GOTO table	3	
Proper use of lookahead	2	
7. Parsing Execution & Trace	15	
SLR(1) parsing implementation	7	
LR(1) parsing implementation	5	
Step-by-step trace output	3	
8. Conflict Analysis & Comparison	15	
Identification of SLR conflicts	4	
LR(1) resolves conflicts	5	
Example where LR(1) succeeds but SLR fails	3	
Performance & state comparison	3	
9. Output Formatting & Testing	5	
Clean display of outputs	3	
Proper testing with multiple cases	2	
10. Code Quality & Documentation	5	
Complete report	5
